

East Bay Citizens for Peace
Position Statement on Iraq
June 2014

East Bay Citizens for Peace remains opposed to any military intervention in Iraq. Our past intervention has cost American lives, and untold billions. It has also cost the Iraqis dearly in terms of Iraqi lives lost, wide spread destruction, destabilization, and exacerbation of ethnic and religious tensions. In addition it has created millions of refugees. We urge diplomacy and recognition of the fact that, as the President has said, the people of Iraq need to decide their own fate.

We urge everyone to contact their Congressional representatives and the President, urging them to continue efforts at diplomacy and oppose further military involvement.
